## Full-Stack Web Developer

---

An extremely driven and motivated full-stack developer with solid skills in Python and Django. An artist who absolutely loves problem-solving, algorithms, and the front-end to back-end equally. Absolutely thrives in a fast-paced environment with plenty of team members to nerd out with over how awesome coding and programming is. Looking to create the next generation of earth-shattering applications with a team that loves programming as much as I do.

## Why Me?

---

- Driven, passionate developer wanting to do the hard work for a great team
- Team-player who thrives in teams where we can help each other and generate ideas
- Passionate about the methodology and fundamentals of programming and constantly looking to learn more
- Highly motivated super nerd who can't get enough of computers, code, art, and coffee

## Technical Toolbox

---

Languages: Python, Javascript  
Front-end: HTML5, CSS, jQuery, Ajax  
Back-end: Django, Flask, Bcrypt

Database: SQLite, MySQL  
Methodology: OOP, MVC, RESTful, RWD  
Version Control: Git, Github

## Work Experience

---

Jun 2016 to Oct 2016

### Coding Dojo

- Coding Dojo Full-Stack Web Development training learning how to build web applications front-end to back-end in intensive 14-hour a day, 7-days a week training
- Built 20+ apps from ground up serving many methodologies from OOP to RESTful
- Working over 1400 hours creating over 40 apps

Mar 2014 to Jun 2016

### Freelance Illustrator

- Delivered highly detailed concept art and illustrations for clients with a variety of styles and needs
- Worked with clients to ensure art was always exactly how they needed it for the project's needs
- Continuously met deadlines
- Anticipated client needs and made revisions as necessary
- Clients: Hex entertainment, Nerdcore Medical, AEG Entertainment

### Account Support Oatley Academy

Apr 2014 to Aug 2015

- Customer Service
- Database support
- Account management
- Blog post creation

## Education and Training

---

Full-Stack Developer  
Coding Dojo

October 2016

Learned both fundamentals of programming and two full stacks including Python/Django and the MEAN stack.

### **Illustration and Visual Development**

Oatley Academy

- Mentored and taught from former Disney visual development artist, Chris Oatley
- Digital Painting
- Advanced Storytelling
- Painting Drama 1, and 2

### **Illustration**

Art Institute

Over 90 credits studying animation, illustration, and fine arts

## **Scholarships and Awards**

---

- Publication in Infected by Art volume 3
- Oatley Academy Scholarship for Painting Drama 1
- Coding Dojo Career Change Scholarship
